EXP1

1. Create a Kanban Board to Visualize the Tasks.

Create Columns for To Do, In-Progress and Done. Add Atleast 5 Sample Tasks Move the Tasks across the Columns to Simulate the Workflow.

Overview

The screenshot shows a Kanban board used for project management. Tasks are organized into three stages representing the progress of work.

Workflow

1. To Do – Tasks that have not yet started.
 - Test application
 - Prepare final report
2. In Progress – Tasks currently being worked on.
 - Develop login module
3. Done – Completed tasks.
 - Collect project requirements
 - Design UI mockups

How the Kanban Board Works

- New tasks are created in the To Do column.
- When work begins, tasks move to In Progress.
- After successful completion and verification, tasks are moved to Done.
- This workflow helps teams visualize progress, improve collaboration, and complete projects efficiently
